1 Transactions on Data Privacy

IF-PAD/CSIC and CRISES/URV launched in 2008 the journal “Transactions on Data Privacy” (<http://www.tdp.cat>) with V. Torra (IF-PAD/CSIC) and J. Domingo-Ferrer (CRISES/URV) as co-editors in chief. The journal is published by IF-PAD/CSIC. The journal started with the support of the IIIA-CSIC, the Catalan Association of Artificial Intelligence (member of the ECCAI, - European Coordinating Committee on Artificial Intelligence) and the UNESCO Chair in Data Privacy. We are now completing the fifth volume (last issue of this volume is to be published in December). The journal is currently indexed at DBLP, ACM Digital Library, MathSciNet, DOAJ (directory of open access journals). The editors look forward to getting it listed in ISI Journal Citation Reports.
